

Environmentally Friendly UV Ink Products

EFI-VUTEK offers UV ink products formulated to lessen the impact on the environment. The PV200, PV320, QS, QSr and QS Series 2 inks:

1. Contain some naturally-derived monomers and oligomers derived from renewable resources such as plants or biomass.
2. Contain virtually no volatile organic compounds (VOC).
3. Do not contain heavy metals such as antimony, arsenic, cadmium, chromium (VI), lead, mercury, and selenium.
4. Are not toxic, known to be carcinogenic, mutagenic or toxic to reproduction and comply with the Exclusion List for Printing Inks and Related Products (October 2006) issued by the European Printing Ink Association (EuPIA).
5. Are not considered a hazardous waste under the US waste regulations (RCRA).

EFI will continue to develop environmentally friendly products to protect and enhance human health and the environment. Health and safety information associated with EFI ink products is disclosed on each of the material safety data sheets.
